How to Avoid Fees

Excess Withdrawal Fee: Allow your savings to accumulate. Set your deduction at an amount you can "afford" to save without making withdrawals.

Low Balance Fee: Keep at least a \$25 balance at all times to preserve your membership.

Returned Mail Fee: Keep us informed when you relocate. It's costly for us to send mail, have it returned, and then research to find your current address.

Escheat Fee: Perform at least one transaction per year. Dividends aren't considered transactions.

Postage Reimbursement Fee: Enroll in our electronic statement product eStatements.

Check Copies Fees: Free check images if retrieved from our Online Banking product.

Visa Credit Card Over Credit Limit Fee: Keep track of your outstanding balance so you can stay within your approved limit. Use payroll deduction to accumulate loan payments; we will automatically transfer your payment for you each month.

SWBC Payments: Set up a recurring payment for free.

Most of these fees can be avoided by properly maintaining your checking account. Balance your account each month. Consider overdraft protection to avoid overdrawing your account.
